

As an avid XM radio listener, I am writing to ask you to reject the National Association of Broadcasters' petition 04-160. The XM local traffic reports provide a great service. They are available continuously, meaning I can find out where the traffic problems as soon as I start my commute. The broadcast stations only offer traffic reports every ten minutes, meaning I could already be stuck in traffic by the time the report comes on. Please do not allow the NAB to monopolize the broadcast of local traffic information and deny XM listeners a valuable service they are willing to pay for.
